Hays,

thank you for getting back to us and good luck with the Gold King blowout response;
I assume we're talking next year ?

John, Allen and I have been working on the Gold King Mine blowout response. All other work on mine sites has been put on hold by the EPA Administrator. When that hold is lifted I will and I am sure Allen will as well inform the San Miguel County BOCC and officials of our ability to proceed and present plans for discussion.

I will strive to keep you informed.

Thank you

Hays

Hello Hays and Allen:

Please see the attached (PDF) letter from the San Miguel County Board of Commissioners inquiring about the status of the Carbonero Mine Rehabilitation and the Caribeou Tailings projects. Thank you for your assistance.

John
